Starting the week of March 4, 2019 Treasure Island Community Development (TICD) will commence soil hauling on the newly constructed soil haul route on the south side of 9th Street between Avenue B and Avenue H. All hauling activity will take place within the fenced-in haul route. The Treasure Island community can expect the following:

- Heavy trucks hauling soil along the haul route throughout the workday, 7:00 AM to 5:00 PM, including an increase in noise associated with vehicle movement.
- Weekend daytime soil hauling may occur and will be noticed separately.
- There will be no new impact to existing traffic circulation along 9th Street, Avenue B, Avenue D and Avenue H.
- There will be no changes to the MUNI 25-Treasure Island bus route and current MUNI 25-Treasure Island stops on 9th Street.
- Hauling is expected to continue daily through December, 2020.

See reverse of this diagram for 9th Street Soil Haul Route Location.

Please drive safely and share the road on-Island at all times!

TICD Construction Hotline (888) 469-0797

Please call the TICD Construction Hotline with any questions or concerns related to the above work or to other construction activities associated with the TI/YBI redevelopment project.
