4.2.13 EASTSIDE PARK 205
4.2.14 YBI HILLTOP PARK 207
4.2.15 YBI BEACH PARK 217
4.1 OVERALL PARKS AND OPEN SPACE

The Treasure Island and Yerba Buena Island Parks and Open Space system and program are the culmination of over a decade of public discussion on how these extraordinary open spaces at center of San Francisco Bay can best contribute to the City’s and region’s future. In addition to the public discussion and ongoing work with TIDA, TI/YBI Citizens Advisory Board (TIYBI CAB), existing residents, and stakeholder organizations, the programming and design of the open spaces reflects intensive analysis of site opportunities and constraints, natural and cultural resources, Tidelands Trust, sea level rise, infrastructure, transportation, access, sustainability and habitat management.

The Islands’ diverse open space program is made up of eight distinct open space types – six on Treasure Island and two on Yerba Buena Island. Together they encompass a wide variety of programs and experiences that will contribute to the unique identity of each island.

The redevelopment of Treasure Island and Yerba Buena Island will provide approximately 290 acres of open space and parks, including 80 acres on YBI and 210 acres on Treasure Island. Consistent with the principle of adjacency described in the DDA, open space and parks will be developed in conjunction with development blocks. Chapter 4 – Parks & Open Space of this Major Phase application provides detailed descriptions of the location, boundary and character of each open space and park that will developed as part of Major Phase 1.

TREASURE ISLAND

Shoreline Park
A series of waterfront parks that wrap western, northern and eastern edges of Treasure Island, characterized by the Waterfront Plaza at the transit hub, Pier 1, a continuous waterfront promenade, water access, and sculpted topography.

Sports and Recreation Park
An active park designed specifically for sports recreation.

Urban Agriculture Park
A park devoted to the production of food and/or nursery stock and with opportunities that provide an educational outreach program. Northern Shoreline and The Wilds, constructed habitats that integrate stormwater management, education and passive recreation.

Northern Shoreline Park and Wilds
Constructed habitats that integrate stormwater management, education and limited passive recreation

Urban Core
A series of plazas and open spaces that help activate the retail core and the transit hub. These areas include Waterfront Plaza, Clipper Cove Promenade, Marina Plaza and the Cultural Park.

Pedestrian Network & Neighborhood Parks
Social spaces and amenities specifically designed for residents.

YERBA BUENA ISLAND

Hilltop Park
A regional and neighborhood serving park with passive recreational areas, overlooks, and picnic areas.

Regional Open Space - Habitat Management Areas
The majority of the island’s open space is dedicated to habitat management and associated recreational uses such as hiking, biking, and picnicking.

Trails and Overlooks
A continuous network of rustic hiking trails will provide access to the island’s open space areas and overlooks.

Senior Officers’ Quarters Historic District
Existing gardens surrounding the historic Senior Officers Quarters.
